SALT LAKE SCHOOLS **WILL OPEN TUESDAY**

Small Boy Will Be Early Today, if Never Again During Year.

SCHOOL BOARD CHANGES DISTRICT BOUNDARIES

Three Kindergarten Schools Will Be Maintained This Year.

School begins Tuesday. The heart of the small boy is sad. Never before in the history of Salt Lake has he been haled to the school house to open school on a Tuesday; never before has he been expected to get down to business until September is more than a week old, and never again does he care to have such an occurrence repeated. But, it is thus. School opens Tuesday. The school board has decided this point, This early opening of the schools will give, however, a week of spring vacation which has not been common within the past five years.

Early Tuesday morning, long before the usual time, the small boy will be out of hed and early for school. He will be early on the first day of the year, because, though he objects to go-ing to school, he is still inquisitive anough to be on hand the first day to see just what kind of a teacher he will have for the next nine months. He will not be so early Wednesday mornwill not be so early Wednesday morning, or any morning thereafter, but Tuesday morning, like the first day of all other things, will have its charm. His shoes will be shined, his hair combed and his face clean. The schoolboy will open school auspiciously Tuesday. Several changes have been made in the school districts this year to accommodate overcrowded districts and to take advantage of new buildings. Fol-

There is no end to the nervous conditions that coffee will produce. It shows in one way in one person and in another way in another. In this case the lady lived in S. Dak. She says:

"I have had to lie awake half the night with my feet and limbs out of the bed on the coldest nights, and felt afraid to sleep for fear of catching cold. I had been troubled for years with twitching and jerking of the lower limbs, and for most of the time I have been unable to go to church or to lee. unable to go to church or to lec-because of that awful feeling that I must keep on the move.

HOW BEAUTIFUL TWINS FOILED DARTS OF CUPID

Special to The Tribune

NEWPORT, R. I., Sept. 2—The beautiful Dean twins, Miss Evelyn and Miss Marion, caused something of a seusation bere because of their marvelous similarity in looks and revived the romantic story told at Palm Beach last spring of a young millionaire who paid court to these Chicago girls, lost his heart to both and abandoned his suit because they would not aid in enabling him to choose between them.

abandoned his suit because they would not aid in enabling him to choose between them.

He had been sending a daily bouquet to them, and decided to give his whole heart to the one which should wear the single one dispatched one day. But the clever girls surmised how the situation stood and had the flowers duplicated. So when he awaited their coming in to dinner he was astonished to see each with a bouquet as like the other as they were alike themselves. To prevent a repetition of this defensive move he bought all the lilies of the valley that his florist had and sent one vast bunch. But the girls divided the gift and he accepted this as a rejection of his suit and fled the resort without even then being able to tell when they were together or apart which was Evelyn and which Marion.

The Misses Dean are the daughters of John E. Dean and came from Narragansett Pier in a big touring car for a few days' sojourn in a hotel here, accompanied by their stepmother. Mrs. Dean is a member of the Cercle Francais and other Chicago clubs, and, besides being a clever French scholar, is an authoress of talent.

sort-seekers stopping to fill their lunch baskets.

For the past two weeks, grapes have been the center of attraction along the row and nothing seems to sell quite so well. Three kinds of grapes are now for sale. They are White Frince, Muscat and Tokay. The first sells at 12½ cents a pound; the second at 15 cents, and the third at 20 cents.

The newest visitor on the market is the Utah nextarine. This resembles a plum in appearance. Nectarines sell at 10 cents a pound.

Tomatoes were for sale Monday, but the supply was small and the buyers proportionately few. The general price now asked is three pounds for 10 cents. Sweet potatoes are gradually dropping in price. On their arrival in the middle of August, they sold at 20 cents a pound; now they sell at three pounds for 25 cents.

COLORADO COAL TRUST MUST GO ON THE RACK

Special to The Tribune.

Special to The Tribune.

DENVER, Sept. 2.—The Government has been asked to use the machinery of its courts to prevent the Colorado coal trust from making further advances in the price of coal, and United States District Attorney Cranston has been requested by Pueblo Typographical union, No. 175, to take action against the illegal combination of coal companies. Mr. Cranston today would not discuss what action he will take in the matter, as he has not received the official communication from Pueblo. There is no doubt that he will be forced to take up the case and presecute the coal barons under the Sherman anti-trust act. Coal has been advancing steadily for a year, with no advance in wages of miners or rail-way freights.

HARRIMAN PRAISES FUTURE OF OREGON

PORTLAND, Ore, Sept. 2.—E. H. Harriman has arrived here from Shanko, Ore, after having concluded a visit of several days length at Pelican Lake Lodge, near Klamath Falls, Ore, with an autombile tour of Central Oregon. Mr. Harriman was liberal in his praise of Oregon and its climate, and predicted a great future for the State.

Regarding the financial conditions in the East, Mr. Harriman says they are not serious in his estimation, but that with the present antagonism toward corporations in view, it is extremely hard to get new capital to make investment.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that aclence has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. YARDMEN TO GET ONE-CENT INCREASE

Demand for Two Cents an Hour Will Be Submitted to E. E. Clark.

DENVER CONFERENCE CLOSED ON SATURDAY

Both Sides Agreed to Arbitration: Disastrous Labor Struggle Is Averted.

E. Buckingham, general superintendent of the Oregon Short Line, has returned from Denver, where he has been attending the conference between the officials of the Western railroads and representa-tives of the yardmen. He says that an tives of the yardmen. He says that an agreement was reached Friday under which the men will be granted an advance in wages of one cent an hour. The men asked for an increase of two cents an hour and the question of the other cent will be referred to E. E. Clark member of the interstate commerce commission, who will act as arbiter and decide whether or not the claim for the two cents is a just one.

Some time this month a meeting will be held when the case will be presented to Commissioner Clark. The railroad companies will be represented by General Manager Hurley of the Atchison, Topeka & Santa Fe, and the case for the yardmen will be presented by Grand Master Morrissey. It has not yet been determined where the meeting will be held, but it will be at a point most convenient to all concerned.

pleasant.

This agreement obviates what threatened to be a most disastrous labor struggle. The concession of one cent an hour is a decided gain by the men, with the possibility of securing their full demand—two cents an hour. The selection of Mr. Clark as arbiter is a happy one and was equally agreeable to both sides. He is well versed in railroad affairs, having spent many years in the business and is familiar with labor conditions with special reference to the railroad service.

LICENSE INSPECTOR

Answers the Strictures of the Smoot Mouth, Showing True Facts.

"My attention was directed today to an article in a paper popularly known as the license department of the City Treasurer's office, wherein incompetency was claimed by reason of the failure properly to collect or enforce ordinance relating to collect or enforce ordinance relating to merchants' license," said B. B. Quinn, license inspector. "Now I want to say that the present system is a heritage of the former administrations—Republican and Democratic—and as licenses, or some of them, are taken out a year in advance, corrections could not be made or enforced until licenses granted under former administrations expired. The condition has been remedied so far as possible. Some merchants have been raised and some lowered, as equity demanded.

It certainly must be a great incentive to them to advertise in a sheet that classifies them as law-breakers. A few copies of the Smootite organ bought at knock-down prices and distributed among the middle class of merchants, showing them how they are dubbed as license and tax dodgers, will be a great means to help build up that fast degenerating organ to a memory of the past, a defunct enterprise inaugurated as a knocker.

"How happy could that organ be if it could only accuse the license department of dishonesty, or if it could only bring it down on a par with the Smootite Republican party in the hide, scalp and bounty fraud of a few years ago, when the church Republican party robbed he State out of a hundred thousand dollars.

Intil the cases are passed on, which are at present before the Supreme court. I think in fairness to all the Smoothe mouth should lie low. When a decision is rendered, the license department of the City Treasurer's office will do its duty without any coaching from a knocker's organ of the Smoothe mouth brand."

ARRANGE FUNERAL FOR DATUS R. HAMMOND

The funeral of Datus R. Hammond, who met his death in the spillway of the Hammond canal Friday night, will be held at 10 o'clock Tuesday morning at Millville. It is thought death came at 7.35 p. m., as the watch which Mr. Hammond carried had stopped at that hour. Some additional particulars have been learned concerning his death. It seems he went to the spillway to remove a board and to divert the water, and slipped and fell. The spillway descended at an angle of 6 degrees. Mr. Hammond plunged down this, fell twenty feet below upon some rocks, rebounded and fell fifteen feet further. His skull was badly crushed and both shoulders, a thigh and a leg were fractured.
